

Hungry for new perspectives?

Full-time position open for immediate hire:

Embedded Software Developer

WHAT WE'RE LOOKING FOR:

Do you meet the following qualifications?

- Good knowledge of low-level programming in C
- Basic understanding of analog and digital circuit design
- Experience with measurement instruments (multimeter, oscilloscope, logic analyzer)
- Experience with STM32 an advantage (STM = ST Microelectronics, our "new" controller platform)
- Knowledge of software development in Python is an advantage
- Knowledge of Linux an advantage

WHAT WE OFFER:

- Flexible working hours and remote work options; ideal balance between leisure, family, and career
- Secure position in a growing, increasingly international family-owned company (a "hidden champion")
- Variety of tasks and complementary teamwork
- Respectful interactions and an open, equal-opportunity environment
- Opportunities for personal and professional development
- Team events and celebrations
- Attractive benefits such as company pension scheme, Jobrad, and the choice between a public transport pass, Hansefit membership, or additional health insurance (May vary depending on employment contract)

Sounds interesting? Let's get to know each other!

Apply now by sending CV, your salary expectations and earliest possible start date to:

bewerbung@saier-gmbh.de or give us a call at: **+49 761 592520**

We look forward to hearing from you!

WHAT YOU'LL DO

- Design, programming, and testing of embedded software in C for microcontroller systems
- Low-level debugging using oscilloscopes and logic analyzers
- Development of test functions for automated software testing in C
- Involvement in the comprehensive planning of SAIER's software projects
- Conducting code reviews
- Ensuring software quality
- Software development for embedded Linux in C
